

LIOHER, offers high quality furniture components with the vision of becoming the one-stop shop for the professionals in the furniture industry.

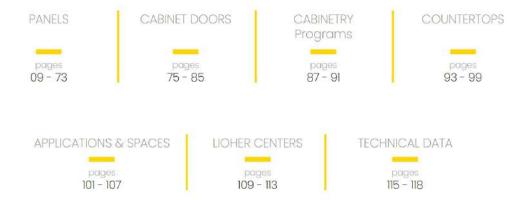

Since its founding in 2010, Lioher has geared itself into offering a big range of products and solutions:

- Modern and technologically advanced boards in stock: the LUXE, ZÉNIT and SYNCRON.
- A leading door production program, which uses state-of-the-art cutting and edge banding technologies: slab doors, sequence matching grain, finger pull and CAVA (shaker doors).
- The best kitchen box on the market, the AQUABOX, which is antibacterial treated, moisture resistant, has a linen finish, and is currently the market's standard for high end contemporary kitchens.
- Two different cabinet programs which covers most of our professional clients needs: Stock and Custom.
- A Network of production and distribution facilities in USA with stock processing machinery, logistics, and full equipped showrooms for a better service to our professional clients.

Today we are developing new products and service, along with the integration of the newest technologies, both in manufacturing and software. In other words, we are working towards becoming your best partner.

FROM THE MOST DARING DESIGNS TO THE TIMELESS CLASSICS LIOHER PRESENTS ITS COLLECTIONS BOOK 2022

Discover in this catalogue the new proposals of shades, designs, finishes and textures that multiply the possibilities of the most avant-garde and innovative projects. Our designs in Luxe -high gloss-, Zénit -supermatt- and Syncron -texturesare available in panels as well as in finished pieces, allowing their application in all types of furniture and interior decoration.

Sustainable and trendy surfaces and products that adapt to any lifestyle and form an ideal set for the creation of unique spaces, where design and high quality become the real protagonists.

BE RESPONSIBLE

LIOHER is one of the companies leading the change for a more sustainable planet.

Our engineered wood surface are made with a combination of sustainable forestry, sawmill-by-products and recycled wood.

All our surfaces are thermofused, and emit the lowest VOC (volatile organic compounds) in the industry. Traditional wood coated with stains and varnishes emits approximately 70% VOC.

PANELS Surface Technologies

High gloss finish with a mirror effect

The LUXE collection is the result of applying the latest generation of materials with the most advanced technology in lacquered surfaces.

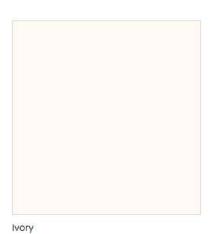

The LUXE surface provides a High Gloss finish and the highest scratch resistance in the industry, paired with a clean and spotless mirror effect.

The LUXE collection incorporates an attractive range of solid colors, wood grains, textiles, metallics and special designs. These designs can be applied in kitchen, bathroom and home furniture, as well as in interior design and commercial projects, achieving a luxurious modern look.

Supermatt finish with silky touch

The ZÉNIT collection is the result of our continuous improvement in lacquering technology and years of R&D+L

The ZÉNIT surface offers a deep supermatt surface with a silky feel together with an extraordinary resistance to abrasion.

The ZÉNIT collection comes with a complete range of solid colors, with or without metallic particles, and elegant designs such as the marbles. These designs provide a contemporary look into kitchen, bathroom and home furniture applications as well as in interior design and commercial projects.

Deep texture and natural finish

The SYNCRON collection is the result of our vertical integration in manufacturing and control of every aspect in the thermofused melamine board production.

The SYNCRON surface provides realistic texture designs with several options for registered finishes, meaning a complete match between texture and design.

The SYNCRON collection offers a deep and complete range of wood grains, stone, marble, textiles, leather, concrete, and oxide finishes that provide a natural and organic feel to any furniture element or commercial project.

FINGER PULL Elegant & Ergonomic Design

The Finger pull design gives an exquisite clean look to your Kitchen, wardrobe or vanity designs.

The FINGER PULL, is a "J" profile door with a color matching soft forming edge band. For a better ergonomics, the door is made in a thicker core of 22mm (7/8") which overall provides a very distinctive, natural, and modern effect.

The Finger pull collection is available in a curated selection of designs in LUXE, ZÉNIT and SYNCRON.

CAVA®

CAVA Modern Tradition

The CAVA is our Shaker style door. Constructed with a 8mm center panel and 18mm rails, it is offered in ZÉNIT and SYNCRON finishes in a variety of formats: 5 to 7 pieces.

The CAVA is the most suitable door for mixing both the traditional kitchen style, and the most modern technologies.

The CAVA doors are already finished and don't need painting.

With the CAVA you can provide high-end traditional solutions with a record improvement in costs, delivery time and execution timings.
